Cruz **Muñiz**

SOFTWARE DEVELOPER

✉ cruzmuniziii@gmail.com | ⬛ kingcruziii | ⬛ cruz-muniz-iii

Languages

JavaScript • TypeScript • Ruby • Shell • Golang

Technologies

Git • GitHub • React • Redux • PSQL • Ruby-Grape • Docker • Kubernetes • Yarn • Npm • Jest • Jenkins • Ansible • Google Cloud Platform (GCP) • Amazon Web Services (AWS) • Grafana

Work Experience

Lumen
Mt. Juliet, TN

SOFTWARE DEVELOPER II
Sep. 2020 - Present

- Built, deployed, and supported highly-available monitoring, remote access, and infrastructure automation service
- Created and maintained continuous integration and delivery (CI/CD) pipelines using Jenkins to deploy to Kubernetes
- Deployed and maintained Kubernetes Infrastructures (standalone and GKE) with Docker containerization
- Develop, maintained, and improved a React front-end UI
- Built and maintained Ruby-Grape APIs
- Built and maintained Golang APIs
- Managed and integrated with DynamoDB for metadata storage
- Deployed, managed, and developed with PSQL Databases
- Developed on/with AWS and GCP
- Investigated and resolve impacting issues, performing root-cause analysis, and implementing mitigation strategies
- Used Scrum Agile Methodology (Daily Scrum Meeting, Planning Poker, Sprint Backlog, 1on1 meeting)
- Screened and Interviewed team member candidates
- Taught and mentored new team members in front and back end development of our application
- Participated in support rotation

Strategic Staffing Solutions (Lumen)
St. Louis, MO

SOFTWARE DEVELOPER
Sep. 2018 - Sep. 2020

- Built, deployed, and supported highly-available monitoring, remote access, and infrastructure automation service
- Created and maintained continuous integration and delivery (CI/CD) pipelines using Jenkins to deploy to Kubernetes
- Deployed and maintained Kubernetes Infrastructures (standalone and GKE) with Docker containerization
- Develop, maintained, and improved a React front-end UI
- Built and maintained Ruby-Grape APIs
